

MaxOG

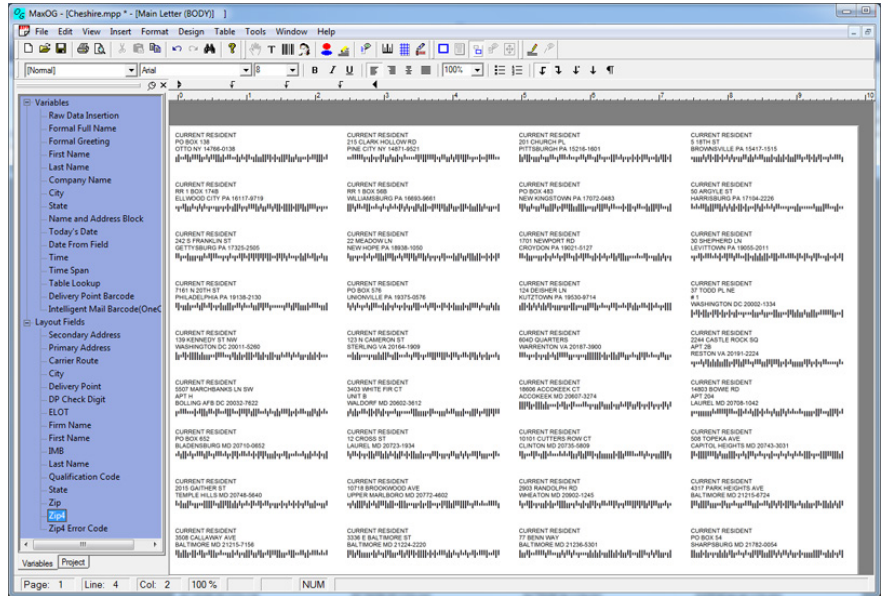

Product Information

Easy to use letter, label and barcode creator

MaxOG uses functionality from MaxPrint, Anchor's powerful document creation and printing solution, to produce a wide variety of documents and labels using text, pictures, boxes, ovals, lines, tables, and fill patterns in any font, color or rotation.

MaxOG enables you to create letters and name-and-address labels with Intelligent Mail barcodes, Intelligent Mail Tray and Container Labels, and Inkjet files.

MaxOG uses Anchor Software's proprietary IMB Manager Technology to allow users to create Intelligent Mail barcodes for files generated by any presort or Mail.dat® product.

DOCUMENT CREATION

- Create documents of any size using the WYSIWYG user interface.
- Insert Variable text into documents, frames and labels.
- Rotate documents and labels to any degree.
- Insert images into documents and frames.
- Test design output during set-up with Print Preview.
- Add and update notes at a given document location using the new Annotation feature.
- Delete all Variables feature will allow you to delete all the variables in a project at once.
- Unlimited file size inputs: Fixed, Variable, Delimited, DBF and ODBC.
- Draw straight lines at any weight and at any angle in solid, dashed, or dotted styles and any color.
- Insert tables to organize information.
