

Product Information

HIPAA compliant address correction and verification solution that easily integrates into your current EMR

EMR systems working with clean data reduces the need to cleanse addresses later in the process

Address issues can be resolved at the time of entry – ensuring addresses will be accurate

Facilitates timely patient communication due to accurate address information

Integrates into EMR and other off-the-shelf third-party applications

Spots fraudulent or business addresses used as the home address

Adds geolocation data to aid in case tracking

AddressPro Features:

- HIPAA Compliant
- Performs standard USPS address verification and correction
- Provides geocoding information
- Module for USPS® Delivery Point Validation and Residential Delivery Indicator aids in fraud prevention
- Multi-threaded operation for resource sharing
- Solution available on premise or in the Cloud
- Supports multiple users and/or systems simultaneously.
- Configurable logs that can help troubleshoot issues
- SOAP/XML implementation for easy setup and integration
- Support for Windows, Linux and UNIX
