

Reduce Undeliverables • Save Money • Increase ROI

MaxCASS OS™, Anchor Software's CASS Certified™ solution updates mailing lists and customer databases with the most complete, correct and current address information available from the USPS. Executable as a batch process for mailing lists or in real-time mode for quick address lookups, MaxCASS OS helps organizations stay in touch with their customers.

The USPS estimates that 4-5% of all mail is undeliverable.

Reduce UAA mail to the lowest level possible.

Achieve the lowest possible postage rates by ensuring addresses are accurate and conform to Postal Service™ standards.

Submit mailings at all possible presort discount levels.

Accurate addresses improve deliverability and save postage.
